

GHI Mapping Project - Weekly Plan

Team Members

Emmanuel, Khaod, Ruchir, Bob, Rhema

Project Context

Developing accurate boundary shapefiles for Greenbelt Homes, Inc. (GHI) to support the reparation committee's work and creating a web portal to share findings.

Objectives for Coming Week

1. Refine GHI boundary shapefile
2. Map Franklin Park Apartments properly
3. Address ArcGIS technical issues
4. Begin web portal proposal development

Tasks

- Download and reference the full GHI map from the provided URL
- Identify and exclude specific areas from boundaries:
 - Green Ridge House at 22 Ridge Road
 - Apartment buildings west of Crescent Road
- Properly identify and map Franklin Park Apartments blocks
- Troubleshoot any ArcGIS project loading issues
- Create updated shapefile in ArcGIS
- Develop initial web portal functionality and design proposal
- Share updated shapefiles with client for review
- Request client feedback on boundaries and portal requirements

Deliverables

1. Refined GHI boundary shapefile
2. Properly mapped Franklin Park Apartments
3. Functioning ArcGIS project
4. Initial web portal proposal

Dependencies

- Access to full GHI map
- Client feedback on boundary clarifications
- Functioning ArcGIS software

Next Steps

Schedule follow-up meeting to review client feedback on the refined shapefile and discuss web portal development in more detail.
